Highest Friction

Item	Friction	Under-supported	Status
Availability of spaces that support focused work	23	46%	▼ Needs attention · moderate
Focused individual work that requires concentration and minimal interruption	21	45%	▼ Needs attention · moderate
Availability of spaces that support discretion	20	41%	▼ Needs attention · slight

Best supported

Item	Support
Cleanliness and upkeep of PulsePoint	90
Reliability of building operations (e.g., elevators, restrooms, etc.)	88
Entry and reception	88

Action plan priorities: 1. Enclosed space for focus and discretion · 2. Workstation hardware standardization · 3. Thermal comfort (temperature)

Role: Associate 65% · Director or Manager 35%
Tenure: More than 10 years 43% · 6 to 10 years 29% · 2 to 5 years 21% · other 7%
Hybrid category: Hybrid 1 - 1-2 Days/Week Onsite 64% · Hybrid 2 - 3-4 Days/Week Onsite 34% · other 1%

IMPORTANCE VS. SUPPORT

Dimension	Score ± margin	Standing	Items needing attention	Worst item
Work Activity	71 ± 3	Above	2 of 7 items need attention	Focused individual work that requires concentration and minimal interruption (Friction 21)
Physical Feature	74 ± 2	Above	3 of 9 items need attention	Availability of spaces that support focused work (Friction 23)
Service Level	83 ± 2	Above	0 of 8 items need attention	Availability of on-site food and beverage options (Friction 10)
Digital & Tech	78 ± 2	Above	0 of 6 items below 3.5 agreement	Video conferencing and meeting room technology reliably support in-person and virtual meetings (agreement 4.02)

By question

Question	Importance	Support	Gap	Status
Work Activity				
Planned in-person meetings at a PulsePoint	2.3	4.1	+1.7	▲ Exceeds needs
Informal or spontaneous collaboration with colleagues	2.8	3.8	+1.1	● On track
Working with others on shared tasks or problem-solving	3.1	3.8	+0.7	● On track
Learning, training, or skill development	3.6	3.8	+0.2	● On track
Tasks requiring discretion	3.7	3.7	+0.0	● On track
Virtual collaboration with remote or hybrid colleagues	4.1	4.0	-0.2	▼ Needs attention · slight (borderline)
Focused individual work that requires concentration and minimal interruption	4.2	3.7	-0.5	▼ Needs attention · moderate
Physical Feature				
Availability of community spaces (i.e. gathering, event spaces, café)	3.0	4.2	+1.2	● On track
Availability of meeting and collaboration spaces (individual and group)	3.5	4.1	+0.6	● On track
Availability of spaces that support personal wellbeing or restoration (quiet space, wellness rooms, walking treadmills, etc.)	3.5	4.0	+0.5	● On track
Ease of navigating and finding spaces (directions and signage)	3.9	4.1	+0.2	● On track
Lighting comfort (natural and artificial)	4.1	4.1	+0.1	● On track
Furniture comfort and ergonomics (including adjustability of chair and workstation)	4.1	4.1	+0.0	● On track
Availability of spaces that support discretion	4.1	3.6	-0.4	▼ Needs attention · slight
Thermal / temperature comfort	4.2	3.8	-0.4	▼ Needs attention · slight
Availability of spaces that support focused work	4.3	3.7	-0.6	▼ Needs attention · moderate
Service Level				
Entry and reception	3.3	4.5	+1.2	● On track
Support from a community manager	3.4	4.2	+0.8	● On track
Access to workplace support services that support daily needs (e.g., office supplies, printing, mail)	3.4	3.9	+0.5	● On track
Cleanliness and upkeep of PulsePoint	4.3	4.6	+0.3	● On track
Ability to get help resolving workplace or technology issues while on site	4.3	4.5	+0.2	● On track
Availability of on-site food and beverage options	3.6	3.8	+0.2	● On track
Communication about workplace updates, changes, or disruptions	4.2	4.4	+0.2	● On track
Reliability of building operations (e.g., elevators, restrooms, etc.)	4.5	4.5	+0.1	● On track
Digital & Tech				
Digital collaboration tools (e.g., Microsoft tools) support effective work with remote or hybrid colleagues	—	4.2	—	◇ Strong (agreement)
Reservation tools are easy to use	—	4.2	—	◇ Strong (agreement)
Technical issues that affect my ability to work are resolved in a timely manner	—	4.1	—	◇ Strong (agreement)
I can connect and start working at a PulsePoint without unnecessary technical friction (WiFi, power or cabling, monitors or peripherals, log-in/system access)	—	4.1	—	◇ Strong (agreement)

Question	Importance	Support	Gap	Status
Workplace-provided hardware (e.g., monitors, keyboards, mice, power) is readily available and works as expected	—	4.1	—	◇ Strong (agreement)
Video conferencing and meeting room technology reliably support in-person and virtual meetings	—	4.0	—	◇ Strong (agreement)

Gap = Support − Importance (1–5). Status is the official support status: ▼ Needs attention (Under Supported) · ● On track (Target) · ▲ Exceeds needs (Over Supported). Needs-attention items carry a severity from the rounded gap (−0.1 to −0.4 slight, −0.5 to −0.9 moderate, −1.0 or worse severe) and are marked *borderline* when the gap's 95% interval includes 0; "On track, low support" = on track but Support under 60/100. Digital & Tech has no Importance rating: ◇ shows its agreement band (Strong ≥ 4.0 · Moderate 3.5–3.9 · Needs attention < 3.5).

ASSOCIATE SENTIMENT

Dimension	Summary question	Site ± margin	Company	Difference	Standing
Work Activity	"My workplace enables me to work productively" (Q8)	3.68 ± 0.14	3.31	+0.37	**Above**
Physical space	"I feel comfortable and safe while working at the PulsePoint" (Q12)	4.20 ± 0.12	3.94	+0.26	**Above**
Services	Overall ease of using the PulsePoint — Services (Q16)	4.20 ± 0.11	3.91	+0.29	**Above**
Technology	Overall ease of using the PulsePoint — Technology (Q19)	4.12 ± 0.11	3.83	+0.29	**Above**
Overall	Average of the four items	4.05 ± 0.11	3.75	+0.30	**Above**

1–5 agreement. Standing: Above / Below when the company mean lies outside the site's 95% interval; otherwise In line. Q16 = Services and Q19 = Technology by survey position.

TOP PRIORITIES — SURVEY ITEMS

The five survey items with the highest Friction at this site, with the comment themes linked to each and one illustrative comment.

1 Availability of spaces that support focused work ▼ Needs attention · moderate

- Friction **23**/100 · **46% under-supported** (Physical Feature)
- Comment themes: Focus / Concentration — 38 people (14% of respondents); Noise & Distraction — 41 people (15% of respondents); Space Availability & Crowding — 22 people (8% of respondents)

> *Some locations can be too noisy because people tend to take phone calls in the hallway areas.*
>
> Associate · comment tagged Noise & Distraction

2 Focused individual work that requires concentration and minimal interruption

▼ Needs attention · moderate

- Friction **21**/100 · **45% under-supported** (Work Activity)
- Comment themes: Focus / Concentration — 38 people (14% of respondents); Noise & Distraction — 41 people (15% of respondents); Space Availability & Crowding — 22 people (8% of respondents)

> *Loud talkers whose voices carry. I bought noise canceling earbuds and have to use them when I'm at the office, and even then I can hear certain people through the earbuds.*
>
> Associate · comment tagged Noise & Distraction

3 Availability of spaces that support discretion ▼ Needs attention · slight

- Friction **20**/100 · **41% under-supported** (Physical Feature)
- Comment themes: Privacy & Confidentiality — 41 people (15% of respondents)

> *Limited number of offices or spaces that allow for discretion as people manager.*
>
> Director or Manager · comment tagged Privacy & Confidentiality

4 Thermal / temperature comfort ▼ Needs attention · slight

- Friction **16**/100 · **37% under-supported** (Physical Feature)
- Comment themes: Temperature / Thermal — 23 people (8% of respondents)

> *I am always freezing in the office. I have knee and foot problems, so I limp the day following the office visit because i have to walk so much in the office.*
>
> Associate · comment tagged Temperature / Thermal

5 Virtual collaboration with remote or hybrid colleagues ▼ Needs attention · slight (borderline)

- Friction **16**/100 · **32% under-supported** (Work Activity)
- Comment themes: AV / Video Conferencing — 10 people (4% of respondents); Privacy & Confidentiality — 41 people (15% of respondents); Noise & Distraction — 41 people (15% of respondents)

> *I am a Training Specialist and interact learners all over the states. The workstations do not allow privacy. There are times were my voice my interrupt others. However, the workstation does provide two additional screens that are needed to perform effective training.*
>
> Associate · comment tagged Privacy & Confidentiality

Technology watch: no Digital & Tech item is below 3.5 or below the company.

What comments add — by category

Category	People (% of respondents)	% negative	Friction	Score
Focused / Private Work	82 (30%)	57%	20	85
Physical Environment	76 (28%)	60%	12	73
Technology	68 (25%)	50%	8	61
Amenities & Services	65 (24%)	28%	5	48
Workplace Operations	56 (20%)	31%	6	45
Collaboration & Meetings	28 (10%)	47%	5	37
Policy / Experience	13 (5%)	35%	—	27

Score = 40% people raising it + 35% share of comments negative + 25% Friction (each rescaled). Generic praise / dissatisfaction buckets are excluded.

WHAT NEEDS ATTENTION

- **Noise & Distraction** — 41 people (15% of respondents) · 58 comments, 57% negative

WHAT'S WORKING

- **Cleanliness & Upkeep** — 20 people (7% of respondents) · 22 comments, 59% positive

- **Privacy & Confidentiality** — 41 people (15% of respondents) · 57 comments, 63% negative
- **Hardware (Monitors / Peripherals)** — 39 people (14% of respondents) · 55 comments, 51% negative
- **Desk Availability & Reservations** — 39 people (14% of respondents) · 44 comments, 57% negative
- **Connectivity (WiFi / Login / Power)** — 26 people (9% of respondents) · 29 comments, 59% negative
- **Reception & Entry** — 15 people (5% of respondents) · 17 comments, 82% positive
- **RTO / Hybrid Policy** — 13 people (5% of respondents) · 20 comments, 50% positive
- **Building Operations** — 13 people (5% of respondents) · 15 comments, 53% positive

THEMES THAT DIFFER HERE

Theme	Here (% of respondents)	Other 9 sites	
Noise & Distraction	15%	24%	less common here
Privacy & Confidentiality	15%	22%	less common here
Hardware (Monitors / Peripherals)	14%	23%	less common here
Connectivity (WiFi / Login / Power)	9%	15%	less common here
Temperature / Thermal	8%	14%	less common here
RTO / Hybrid Policy	5%	9%	less common here
Community & Events	2%	6%	less common here
Lighting	2%	6%	less common here

Only themes whose share of people differs from the other in-scope sites beyond chance (two-proportion test, Benjamini–Hochberg across 27 themes, $q < 0.05$).

Operational Action Plan — What to Do Next

Auto-generated draft to validate — not a re-summary of the survey. Primary owner for every action: **Regional Director + Local Team**. A full read of the report card below is still recommended. The team's job: Confirm / Modify / Reject, then assign owner, cost, and timing.

> **Evidence check (2026-11-10):** the corrected data weakens the support for the items below. They are left in place for the site team to confirm, modify or reject.
>
> - Protect item 'Collaboration Space': the true positive share is 20% (20% negative) — it no longer clears the What's-working bar
> - Protect item 'AV / Video Conferencing': the true positive share is 9% (55% negative) — it no longer clears the What's-working bar
> - Protect item 'Parking & Commute': the true positive share is 30% (33% negative) — it no longer clears the What's-working bar

1 Enclosed space for focus and discretion

LOCAL ACTION

Even as the top-ranked site, Atlanta's most-cited gap is too few capsules/rooms for discreet meetings and phone calls taken in hallways carrying noise.

WHAT THIS LOOKS LIKE HERE

- The limited number of capsules to have meetings that require discretion. The limitation of 2 hours in each capsule.
- Some locations can be too noisy because people tend to take phone calls in the hallway areas.

EVIDENCE

- **FINDING** Focused / Private Work is the #1 priority category (85/100).
- **FINDING** Noise & Distraction: 41 people (15% of respondents), 58 comments, 57% negative; Privacy & Confidentiality: 41 people (15% of respondents), 57 comments, 63% negative.
- **FINDING** Focused-space friction 23/100 (46% under-supported); the 2-hour capsule limit is called out.

PROPOSED ACTION Review capsule/room booking rules (including the 2-hour cap) and a hallway-calls etiquette nudge before adding rooms.

TEAM Primary: **Regional Director + Local Team** · Support: Workplace Solutions, Change & Communications

SITE TEAM MUST Test whether relaxing/adjusting the capsule time limit and a hallway-call norm reduce the complaints; measure before/after.

2 Workstation hardware standardization

LOCAL ACTION

Monitors are reset to unusable positions each visit and shared keyboards/mice are a hygiene concern, adding friction to every arrival.

WHAT THIS LOOKS LIKE HERE

- Hinder = 1) Monitors are unnecessarily 'reset' to locations that are unusable and each visit requires maneuvering monitors/cords/etc. 2) Keyboards/mice - We went from Covid is the plague to communal keyboards/mice. I'm the furthest thing...

EVIDENCE

- **FINDING** Hardware: 39 people (14% of respondents), 55 comments, 51% negative. Connectivity: 26 people (9% of respondents), 29 comments, 59% negative.

PROPOSED ACTION Standardize monitor/dock setup, run routine checks, and address the shared-peripheral hygiene concern (wipes or personal-kit option).

TEAM Primary: **Regional Director + Local Team** · Support: Technology

SITE TEAM MUST Inspect stations, fix the monitor-reset issue, and provide a hygiene option for shared peripherals.

3 Thermal comfort (temperature)

LOCAL ACTION

Temperature is a specific, negative complaint concentrated in certain zones.

WHAT THIS LOOKS LIKE HERE

- Temperature is called out as too cold in several comments (see Physical Feature detail).

EVIDENCE

- **FINDING** Temperature / Thermal: 23 people (8% of respondents), 28 comments, 68% negative; thermal friction 16/100 (37% under-supported).

PROPOSED ACTION Check HVAC set-points/balancing in the flagged zones; confirm a durable fix.

TEAM Primary: **Regional Director + Local Team** · Support: Workplace Operations

SITE TEAM MUST Log the cold zones/times and verify the correction holds.

4 Reserved-desk etiquette and visibility

LOCAL ACTION

Associates arrive to find someone in the desk or room they reserved, with nothing at the desk showing it is reserved, and some people hold more than one space at a time.

WHAT THIS LOOKS LIKE HERE

- Its frustrating when another Elevance employee decides to sit in the space that I reserved for the day.

- When someone sits down at a station that is reserved, there is no indication. It would be helpful to discourage them from using what's been reserved.
- Other associates taking up multiple spaces by reserving more than one space (focus room and work station) at the same time. ...

EVIDENCE

- **FINDING** Desk Availability & Reservations: 39 people (14% of respondents), 44 comments, 57% negative — the 2nd most-raised theme by people not already covered by P1–P3 (after Food & Beverage).
- **FINDING** 'Reservation tools are easy to use' agreement: 4.23 vs 4.03 company average (Strong).
- **INTERPRETATION** The tool itself rates well, so the fix is behavior and visibility — who is sitting in a reserved seat — not a new system.

PROPOSED ACTION Make reserved status visible at the desk (check-in, or a reserved indicator if the system supports it), auto-release unclaimed bookings, and set a one-space-at-a-time norm.

TEAM Primary: **Regional Director + Local Team** · Support: Reservation-system owner, Change & Communications

SITE TEAM MUST Spot-check reserved vs. occupied desks on peak days, confirm which check-in/indicator features exist, and communicate the etiquette norm.

5 Chair condition and adjustability

LOCAL ACTION

Worn chairs with failing adjustments and torn arm pads mean associates try several desks before they can settle — a condition problem at specific desks rather than a site-wide furniture gap.

WHAT THIS LOOKS LIKE HERE

- I seem to have bad luck with selecting workstations whose chairs are wobbly and worn out. Usually it takes a few desks before I find one that has working adjustments and isn't falling apart even if it looks ok from the outside.
- Many chair arm pads are ripped on Quad B 12th floor and need to be repaired.
- Chairs and tables are old. More than 5+ years

EVIDENCE

- **FINDING** Furniture & Ergonomics: 15 people (5% of respondents), 20 comments, 65% negative.
- **FINDING** Furniture comfort & ergonomics: on Target — friction 10/100 (28% under-supported).
- **INTERPRETATION** The survey item is on Target, so treat this as repairing and replacing worn chairs, not a furniture refresh.

PROPOSED ACTION Have Workplace Operations audit chair condition floor by floor, repair or replace failed chairs (starting with Quad B, 12th floor), and add a simple way to tag a broken chair.

TEAM Primary: **Regional Director + Local Team** · Support: Workplace Operations

SITE TEAM MUST Complete the chair audit, take failing chairs out of service, and confirm repairs or replacements within 30 days.

PROTECT WHAT IS WORKING

- **Service Level** — 82.5 ± 2, above the company average (75.6) — the whole service experience is a model to protect *Maintain the current service level and monitor performance.*
- **Collaboration Space** — 20% positive and 20% negative across 5 comments from 5 people *Maintain the current service level and monitor performance.*
- **AV / Video Conferencing** — 9% positive and 55% negative across 11 comments from 10 people *Maintain the current service level and monitor performance.*
- **Parking & Commute** — 30% positive and 33% negative across 33 comments from 29 people *Maintain the current service level and monitor performance.*

OPERATIONAL TEAM RESPONSE

PRIORITY	VALIDATE	ACTION TYPE	FINAL OWNER	COST	TARGET / ESCALATION
Enclosed space for focus and discretion	Confirm / Modify / Reject				
Workstation hardware standardization	Confirm / Modify / Reject				
Thermal comfort (temperature)	Confirm / Modify / Reject				
Reserved-desk etiquette and visibility	Confirm / Modify / Reject				
Chair condition and adjustability	Confirm / Modify / Reject				

ASSUMPTIONS

- Atlanta is above the company average overall (Index 77 ± 2 vs 69.0); these are optimizations of an already-strong site, not fixes for systemic problems.

Auto-generated draft · Claude Opus/Cowork · 2026-09-29 · evidence refreshed 2026-11-10

IN THEIR WORDS

> *The cubicle spaces all have short walls that do little to reduce noise when people have loud conversations nearby*
>
> Director or Manager · one of 33 negative comments tagged Noise & Distraction

> *Again, having private conversations is a challenge. There are unused spaces in our area... large tables that go unused and the couch area that is rarely used. These could be repurposed for more private spaces.*
>
> Director or Manager · one of 36 negative comments tagged Privacy & Confidentiality

> *Vegetarian options went down drastically after the food options were made fully charged. The salad bar was good prior to when it was fully paid by Elevance but now with what we pay, there are no good options especially for vegetarians*
>
> Associate · one of 15 negative comments tagged Food & Beverage

> *Hinder = 1) Monitors are unnecessarily 'reset' to locations that are unusable and each visit requires maneuvering monitors/cords/etc. 2) Keyboards/mice - We went from Covid is the plague to communal keyboards/mice. I'm the furthest thing from a germaphobe, but communal keyboards are strange.*
>
> Director or Manager · one of 28 negative comments tagged Hardware (Monitors / Peripherals)

> *When someone sits down at a station that is reserved, there is no indication. It would be helpful to discourage them from using what's been reserved.*
>
> Associate · one of 25 negative comments tagged Desk Availability & Reservations

> *It is so CLEAN here, I love it. The staff who keep this place clean are great at what they do! The security guards on the ground floor are also awesome and I love them.*
>
> Associate · Cleanliness & Upkeep · positive

> *The Atlanta office services are excellent. The security team, cleaning staff, and overall support teams do a fantastic job maintaining a welcoming, high-quality environment. The space is beautiful, even though it doesn't always function well for the needs of my role.*
>
> Director or Manager · Reception & Entry · positive

276 respondents at this site; counts under 5 print as "<5" with the percentage left blank.

Data source & method. PulsePoint survey export · completed responses · 10 in-scope sites. Support responses map to 0–100; each dimension is the average of its items; the Overall PulsePoint Experience Index is the **unweighted** average of the four Dimension Scores — the same calculation as the Tableau deck. ± is the 95% margin from resampling this site's respondents (2,000 resamples). Friction and status per the official Tableau spec. Theme prevalence counts people (one person can answer five open questions); comment counts are secondary. Themes come from a keyword taxonomy (29 themes across 7 categories, `taxonomy.py`). A comment shows the writer's role only when at least 10 respondents at the site share it; tenure is never shown beside a comment. "Company" means the 10 in-scope sites pooled, in the selected population (completed responses or all responses). Comment themes and sentiment are automated and not yet validated.
