IMPORTANCE VS. SUPPORT

Dimension	Score ± margin	Standing	Items needing attention	Worst item
Work Activity	63 ± 2	In line	3 of 7 items need attention	Focused individual work that requires concentration and minimal interruption (Friction 26)
Physical Feature	63 ± 1	Below	4 of 9 items need attention	Availability of spaces that support discretion (Friction 28)
Service Level	77 ± 1	Above	0 of 8 items need attention	Ability to get help resolving workplace or technology issues while on site (Friction 9)
Digital & Tech	70 ± 1	Below	0 of 6 items below 3.5 agreement	Workplace-provided hardware (e.g., monitors, keyboards, mice, power) is readily available and works as expected (agreement 3.65)

By question

Question	Importance	Support	Gap	Status
Work Activity				
Planned in-person meetings at a PulsePoint	2.1	3.8	+1.7	▲ Exceeds needs
Informal or spontaneous collaboration with colleagues	2.6	3.5	+1.0	● On track
Working with others on shared tasks or problem-solving	2.8	3.5	+0.7	● On track
Learning, training, or skill development	3.2	3.6	+0.4	● On track
Virtual collaboration with remote or hybrid colleagues	4.0	3.6	-0.4	▼ Needs attention · slight
Tasks requiring discretion	3.7	3.2	-0.5	▼ Needs attention · moderate
Focused individual work that requires concentration and minimal interruption	4.1	3.3	-0.7	▼ Needs attention · moderate
Physical Feature				
Availability of community spaces (i.e. gathering, event spaces, café)	2.6	3.9	+1.3	● On track
Availability of spaces that support personal wellbeing or restoration (quiet space, wellness rooms, walking treadmills, etc.)	3.1	3.5	+0.5	● On track
Availability of meeting and collaboration spaces (individual and group)	3.2	3.5	+0.4	● On track
Lighting comfort (natural and artificial)	3.7	3.7	+0.0	● On track
Ease of navigating and finding spaces (directions and signage)	3.5	3.6	+0.0	● On track
Furniture comfort and ergonomics (including adjustability of chair and workstation)	3.8	3.6	-0.2	▼ Needs attention · slight
Thermal / temperature comfort	3.9	3.3	-0.6	▼ Needs attention · moderate
Availability of spaces that support focused work	4.1	3.4	-0.7	▼ Needs attention · moderate
Availability of spaces that support discretion	4.0	3.2	-0.8	▼ Needs attention · moderate
Service Level				
Entry and reception	2.8	4.3	+1.6	▲ Exceeds needs
Support from a community manager	2.8	3.9	+1.1	● On track
Access to workplace support services that support daily needs (e.g., office supplies, printing, mail)	2.9	3.8	+0.9	● On track
Availability of on-site food and beverage options	3.4	3.8	+0.5	● On track
Cleanliness and upkeep of PulsePoint	4.1	4.3	+0.2	● On track
Communication about workplace updates, changes, or disruptions	3.9	4.1	+0.2	● On track
Ability to get help resolving workplace or technology issues while on site	3.9	4.0	+0.1	● On track
Reliability of building operations (e.g., elevators, restrooms, etc.)	4.2	4.4	+0.1	● On track
Digital & Tech				
Digital collaboration tools (e.g., Microsoft tools) support effective work with remote or hybrid colleagues	—	4.1	—	◇ Strong (agreement)
Reservation tools are easy to use	—	4.0	—	◇ Strong (agreement)
Technical issues that affect my ability to work are resolved in a timely manner	—	3.7	—	◇ Moderate (agreement)
I can connect and start working at a PulsePoint without unnecessary technical friction (WiFi, power or cabling, monitors or peripherals, log-in/system access)	—	3.7	—	◇ Moderate (agreement)
Video conferencing and meeting room technology reliably support in-person and virtual meetings	—	3.7	—	◇ Moderate (agreement)
Workplace-provided hardware (e.g., monitors, keyboards, mice, power) is readily available and works as expected	—	3.6	—	◇ Moderate (agreement)

Gap = Support − Importance (1–5). Status is the official support status: ▼ Needs attention (Under Supported) · ● On track (Target) · ▲ Exceeds needs (Over Supported). Needs-attention items carry a severity from the rounded gap (−0.1 to −0.4 slight, −0.5 to −0.9 moderate, −1.0 or worse severe) and are marked *borderline* when the gap's 95% interval includes 0; "On track, low support" = on track but Support under 60/100. Digital & Tech has no Importance rating: ◇ shows its agreement band (Strong ≥ 4.0 · Moderate 3.5–3.9 · Needs attention < 3.5).

ASSOCIATE SENTIMENT

Dimension	Summary question	Site ± margin	Company	Difference	Standing
Work Activity	"My workplace enables me to work productively" (Q8)	3.33 ± 0.09	3.31	+0.02	**In line**
Physical space	"I feel comfortable and safe while working at the PulsePoint" (Q12)	3.94 ± 0.08	3.94	+0.00	**In line**
Services	Overall ease of using the PulsePoint — Services (Q16)	3.97 ± 0.08	3.91	+0.06	**In line**
Technology	Overall ease of using the PulsePoint — Technology (Q19)	3.78 ± 0.08	3.83	-0.05	**In line**
Overall	Average of the four items	3.76 ± 0.07	3.75	+0.01	**In line**

1–5 agreement. Standing: Above / Below when the company mean lies outside the site's 95% interval; otherwise In line. Q16 = Services and Q19 = Technology by survey position.

TOP PRIORITIES — SURVEY ITEMS

The five survey items with the highest Friction at this site, with the comment themes linked to each and one illustrative comment.

1 Availability of spaces that support discretion

▼ Needs attention · moderate

- Friction **28**/100 · **51% under-supported** (Physical Feature)
- Comment themes: Privacy & Confidentiality — 162 people (23% of respondents)

> *My team is virtual and collogues are vitural. Coming into the pulse point does not support my ability to work with my virtual team or collogues. Due to the nature of the work (PHI and privacy), I attempt to plan those types of discussions/activities outside of the days I am working in the office.*
>
> Director or Manager · comment tagged Privacy & Confidentiality

2 Focused individual work that requires concentration and minimal interruption

▼ Needs attention · moderate

- Friction **26**/100 · **54% under-supported** (Work Activity)
- Comment themes: Focus / Concentration — 66 people (10% of respondents); Noise & Distraction — 160 people (23% of respondents); Space Availability & Crowding — 67 people (10% of respondents)

> *There is no reason for me to be in an office. The people i work with live in different parts of the country so I sit in a corner by myself and talk on the phone to those people. It is inefficient, distracting, and wastes my time commuting*
>
> Associate · comment tagged Noise & Distraction

3 Availability of spaces that support focused work ▼ Needs attention · moderate

- Friction **24**/100 · **48% under-supported** (Physical Feature)
- Comment themes: Focus / Concentration — 66 people (10% of respondents); Noise & Distraction — 160 people (23% of respondents); Space Availability & Crowding — 67 people (10% of respondents)

> *The floor has too many personal conversations going on. This does not mean people are talking about their personal lives, they are talking about members and people on the phone can hear and it's very uncomfortable when taking escalated calls.*
>
> Associate · comment tagged Noise & Distraction

4 Thermal / temperature comfort ▼ Needs attention · moderate

- Friction **23**/100 · **46% under-supported** (Physical Feature)
- Comment themes: Temperature / Thermal — 117 people (17% of respondents)

> *Temperature is an issue, it's very, very cold in the summer. having to always have a sweater/jacket in the office. People have blankets over their laps.*
>
> Director or Manager · comment tagged Temperature / Thermal

5 Tasks requiring discretion ▼ Needs attention · moderate

- Friction **23**/100 · **45% under-supported** (Work Activity)
- Comment themes: Privacy & Confidentiality — 162 people (23% of respondents)

> *I think the biggest thing is being able to overhear other conversations while they are in meetings. I fear that conversations that are meant to be private can be overheard.*
>
> Associate · comment tagged Privacy & Confidentiality

Technology watch: I can connect and start working at a PulsePoint without unnecessary technical friction (WiFi, power or cabling, monitors or peripherals, log-in/system access) — agreement 3.70 ± 0.08, company 3.85 (Below); Workplace-provided hardware (e.g., monitors, keyboards, mice, power) is readily available and works as expected — agreement 3.65 ± 0.08, company 3.80 (Below); Technical issues that affect my ability to work are resolved in a timely manner — agreement 3.72 ± 0.06, company 3.81 (Below)

What comments add — by category

Category	People (% of respondents)	% negative	Friction	Score
Focused / Private Work	261 (38%)	64%	24	82
Physical Environment	298 (43%)	55%	16	76
Technology	240 (35%)	59%	12	66
Amenities & Services	224 (32%)	31%	5	46
Workplace Operations	142 (21%)	46%	7	42
Collaboration & Meetings	102 (15%)	55%	6	40
Policy / Experience	81 (12%)	40%	—	35

Score = 40% people raising it + 35% share of comments negative + 25% Friction (each rescaled). Generic praise / dissatisfaction buckets are excluded.

WHAT NEEDS ATTENTION

- **Hardware (Monitors / Peripherals)** — 176 people (26% of respondents) · 237 comments, 61% negative
- **Privacy & Confidentiality** — 162 people (23% of respondents) · 224 comments, 64% negative
- **Noise & Distraction** — 160 people (23% of respondents) · 205 comments, 67% negative
- **Desk Availability & Reservations** — 147 people (21% of respondents) · 186 comments, 48% negative
- **Connectivity (WiFi / Login / Power)** — 131 people (19% of respondents) · 162 comments, 57% negative

WHAT'S WORKING

- **Reception & Entry** — 42 people (6% of respondents) · 45 comments, 53% positive
- **Wellbeing / Wellness Spaces** — 20 people (3% of respondents) · 22 comments, 55% positive

THEMES THAT DIFFER HERE

Theme	Here (% of respondents)	Other 9 sites	
Hardware (Monitors / Peripherals)	26%	21%	more common here
Desk Availability & Reservations	21%	17%	more common here
Connectivity (WiFi / Login / Power)	19%	13%	more common here
Temperature / Thermal	17%	12%	more common here
Parking & Commute	13%	8%	more common here
RTO / Hybrid Policy	12%	8%	more common here
Focus / Concentration	10%	15%	less common here
Lighting	9%	5%	more common here
Building Operations	2%	5%	less common here

Only themes whose share of people differs from the other in-scope sites beyond chance (two-proportion test, Benjamini–Hochberg across 27 themes, $q < 0.05$).

Operational Action Plan — What to Do Next

Auto-generated draft to validate — not a re-summary of the survey. Primary owner for every action: **Regional Director + Local Team**. A full read of the report card below is still recommended. The team's job: Confirm / Modify / Reject, then assign owner, cost, and timing.

> **Evidence check (2026-11-10):** the corrected data weakens the support for the items below. They are left in place for the site team to confirm, modify or reject.
>
> - Priority 2 (Desk reservations and booking window): the two-week booking window it centres on is mentioned in 11 comments from 9 people; the figure it cited (375 comments) counted every mention of a desk. After the re-tag Desk Availability & Reservations is still raised by 147 people (21% of respondents), so desk booking remains material, but the booking-window change itself rests on a small number of comments — validate locally first.
> - Protect item 'Community & Events': the true positive share is 45% (20% negative) — it no longer clears the What's-working bar

1 Private space for sensitive meetings and all-day calls

LOCAL PROJECT

Associates on sensitive-topic meetings lack all-day private space, and meeting-heavy calendars make the quiet zones hard to actually use.

WHAT THIS LOOKS LIKE HERE

- Lack of offices in which I can work all day. I am on meetings on sensitive topics, and working in general areas is not appropriate.
- Too much noise and distraction at times. So many meetings on our calendar it's hard to utilize the Quiet Zones.

EVIDENCE

- **FINDING** Focused / Private Work is the #1 priority category (82/100); discretion-space friction 28/100 (51% under-supported).
- **FINDING** Privacy & Confidentiality: 162 people (23% of respondents), 224 comments, 64% negative; Noise & Distraction: 160 people (23% of respondents), 205 comments, 67% negative.

PROPOSED ACTION Assess enclosed/quiet-space capacity against the meeting-heavy demand pattern; review whether quiet zones are being absorbed by meetings and need protection or expansion.

TEAM Primary: **Regional Director + Local Team** · Support: Workplace Solutions, Change & Communications

SITE TEAM MUST Measure private-room demand vs. availability across a typical week and escalate the capacity gap with evidence.

2 Desk reservations and booking window

WORKSTREAM / ENTERPRISE

The two-week booking window is too short for how associates plan, and reservations are the highest-volume complaint at the largest site.

WHAT THIS LOOKS LIKE HERE

- Reservations should be available more than 2 weeks out. It is very inconvenient that we can only schedule 2 weeks at a time.

EVIDENCE

- **FINDING** Desk Availability & Reservations: 147 people (21% of respondents), 186 comments, 48% negative — Physical Environment is the #2 priority category (76/100).

PROPOSED ACTION Review the booking-window policy (is the 2-week limit local or enterprise?) and no-show handling.

TEAM Primary: **Regional Director + Local Team** · Support: Reservation-system owner, Technology

SITE TEAM MUST Confirm whether the 2-week window is a local setting or enterprise policy, and route accordingly.

3 Workstation equipment and connectivity reliability

LOCAL PROJECT

Monitors and video often don't work, and USB-C cords on specific floors fail to connect to the network — the site's Digital & Tech score is the lowest of all sites.

WHAT THIS LOOKS LIKE HERE

- Often the monitors don't work and occasionally the video meetings don't work.
- Many of the USBC cords don't work and allow you to connect to the network on the 4th floor.

EVIDENCE

- **FINDING** Hardware: 176 people (26% of respondents), 237 comments, 61% negative; Connectivity: 131 people (19% of respondents), 162 comments, 57% negative.
- **FINDING** Digital & Tech dimension is 69.9 ± 1, below the company average (72.0).

PROPOSED ACTION Run a floor-by-floor equipment and cable audit (the 4th-floor USB-C issue is specific and testable) and route confirmed faults to Technology.

TEAM Primary: **Regional Director + Local Team** · Support: Technology

SITE TEAM MUST Audit cords/monitors by floor, replace failed cables, and escalate the connectivity pattern to Technology with locations.

4 Thermal comfort (temperature)

LOCAL ACTION

The office is widely described as too cold — desks beneath supply vents especially — and it is one of the most frequent and most negative complaints at the site.

WHAT THIS LOOKS LIKE HERE

- It is always too cold in the office which makes it uncomfortable. ...
- The temperature is always frigid and even though I bring a jacket or sweater to wear, my hands are so cold it is difficult to even type. ...
- ...The desks beneath a vent can be freezing cold & I'm typically hot.

EVIDENCE

- **FINDING** Temperature / Thermal: 117 people (17% of respondents), 130 comments, 77% negative.
- **FINDING** Thermal / temperature comfort: Under Supported — friction 23/100 (46% under-supported).

PROPOSED ACTION Have Workplace Operations map cold zones — starting with desks under supply vents — and check set-points, airflow balancing and diffuser direction in those zones.

TEAM Primary: **Regional Director + Local Team** · Support: Workplace Operations

SITE TEAM MUST Log cold zones and times by floor for two weeks, submit them to building operations, and verify the corrections hold.

5 Chair comfort and sit/stand desk repairs

LOCAL ACTION

Chairs are uncomfortable and hard to re-adjust at each new desk, and some standing desks in offices are broken.

WHAT THIS LOOKS LIKE HERE

- The chairs are very uncomfortable and hurt my back. ...
- I have back issues and adjusting the chairs each time in a new cubicle is not easy
- The standing desks in some of the offices are broken.

EVIDENCE

- **FINDING** Furniture & Ergonomics: 56 people (8% of respondents), 58 comments, 64% negative.
- **FINDING** Furniture comfort & ergonomics: Under Supported — friction 14/100 (34% under-supported).

PROPOSED ACTION Audit chair and sit/stand desk condition, fix broken standing desks, and post simple chair-adjustment guidance at shared desks; assess a chair upgrade only if the audit shows widespread wear.

TEAM Primary: **Regional Director + Local Team** · Support: Workplace Operations, Workplace Solutions

SITE TEAM MUST Complete the chair and desk audit by floor, repair what is broken, and report the scale of any remaining gap.

PROTECT WHAT IS WORKING

- **Reception & Entry** — 53% positive and 18% negative across 45 comments from 42 people *Maintain the current service level and monitor performance.*
- **Community & Events** — 45% positive and 20% negative across 40 comments from 36 people *Maintain the current service level and monitor performance.*

- **Wellbeing / Wellness Spaces** — 55% positive and 18% negative across 22 comments from 20 people — the refreshed building is praised *Maintain the current service level and monitor performance.*

OPERATIONAL TEAM RESPONSE

PRIORITY	VALIDATE	ACTION TYPE	FINAL OWNER	COST	TARGET / ESCALATION
Private space for sensitive meetings and all-day calls	Confirm / Modify / Reject				
Desk reservations and booking window	Confirm / Modify / Reject				
Workstation equipment and connectivity reliability	Confirm / Modify / Reject				
Thermal comfort (temperature)	Confirm / Modify / Reject				
Chair comfort and sit/stand desk repairs	Confirm / Modify / Reject				

ASSUMPTIONS

- Indianapolis is the largest site by comment volume (1,266 comments from 503 people); the priorities target the highest-volume, highest-friction gaps.
- Whether the 2-week reservation window is local or enterprise-set needs confirmation.

Auto-generated draft · Claude Opus/Cowork · 2026-09-29 · evidence refreshed 2026-11-10

IN THEIR WORDS

> *the fact that the monitors may or may not work at my pulsepoint.....versus my monitor working every time at home.*
>
> Director or Manager · one of 145 negative comments tagged Hardware (Monitors / Peripherals)

> *Privacy for the work and conversations that I have daily. Traveling into the office to sit in a phone booth all day is not ideal.*
>
> Director or Manager · one of 143 negative comments tagged Privacy & Confidentiality

> *Too much noise and distraction at times. So many meetings on our calendar it's hard to utilize the Quiet Zones.*
>
> Associate · one of 137 negative comments tagged Noise & Distraction

> *not having a dedicated workspace we have to reserve a desk and it makes going into the office feel very nomadic.*
>
> Associate · one of 90 negative comments tagged Desk Availability & Reservations

> *I frequently experience intermittent internet signal loss in the office and often have to wait to reconnect.*
>
> Associate · one of 93 negative comments tagged Connectivity (WiFi / Login / Power)

> *My PulsePoint is beautiful inside and out, I feel secure and safe, I appreciate the friendly security, and enjoy the times I have to come into the office. I also love the gym and being able to walk in such a lovely courtyard.*
>
> Associate · Reception & Entry · positive

> *I enjoy the cafe options and salad bar very much. I appreciate the free coffee and Bevi stations. I stopped using the onsite gym because the women's shower stalls did not appear to be getting thoroughly cleaned on a regular basis.*
>
> Director or Manager · Wellbeing / Wellness Spaces · positive

Data source & method. PulsePoint survey export · completed responses · 10 in-scope sites. Support responses map to 0–100; each dimension is the average of its items; the Overall PulsePoint Experience Index is the **unweighted** average of the four Dimension Scores — the same calculation as the Tableau deck. ± is the 95% margin from resampling this site's respondents (2,000 resamples). Friction and status per the official Tableau spec. Theme prevalence counts people (one person can answer five open questions); comment counts are secondary. Themes come from a keyword taxonomy (29 themes across 7 categories, `taxonomy.py`). A comment shows the writer's role only when at least 10 respondents at the site share it; tenure is never shown beside a comment. “Company” means the 10 in-scope sites pooled, in the selected population (completed responses or all responses). Comment themes and sentiment are automated and not yet validated.
