Round 2 PulsePoints — Portfolio Report Card

Round 2 brief across the 30 round 2 sites · completed responses

62

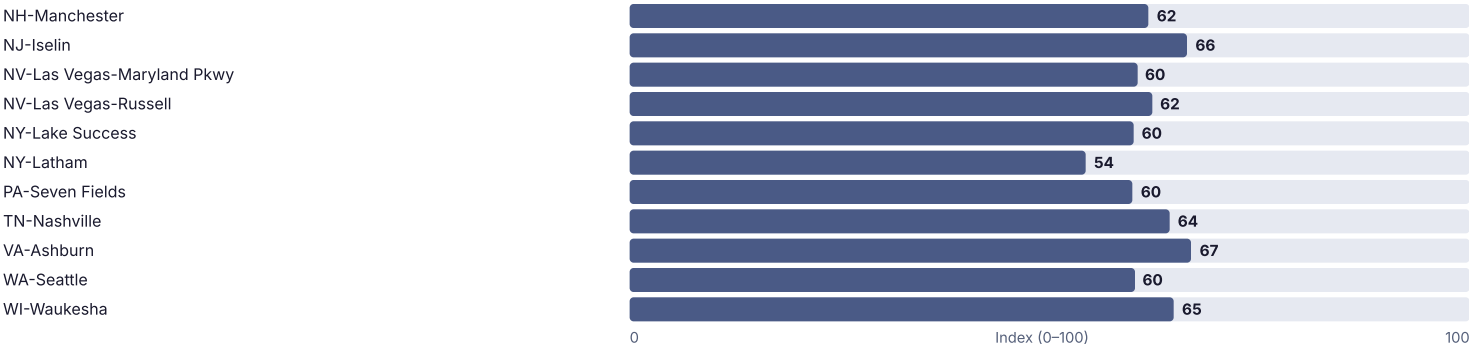

Round 2 Overall PulsePoint Experience Index: 62 ± 1 (0–100)
Sites range 53–79 · 2,288 respondents · 4,120 comments from 1,619 people · completed responses
Comment sentiment: **14% positive** · 30% neutral / mixed · **56% negative**

INDEX SCORE BY SITE

Site	Index ± 95% margin	Standing	Associate sentiment (1–5)
CA-Costa Mesa	**62 ± 4**	**In line**	3.36

PA-Seven Fields (small sample, n=8)	**60 ± 5**	**In line**	3.22
TN-Nashville	**64 ± 4**	**In line**	3.59
VA-Ashburn	**67 ± 5**	**In line**	3.70
WA-Seattle (small sample, n=20)	**60 ± 6**	**In line**	3.08
WI-Waukesha	**65 ± 3**	**In line**	3.58

Sites are alphabetical — no ranking. Standing: Above / Below when the round 2 Index (62.3) lies outside the site's 95% interval (resampling respondents within the site); otherwise In line. “Round 2 average” means the 30 round 2 sites pooled, in the selected population (completed responses or all responses). Round 2 sites are compared only with each other. Sites with fewer than 30 responses are marked “small sample”: their margins are wide and their standings rarely move off In line.

Each cell is the site's Dimension Score (0–100), shaded from lighter (lower) to darker (higher) on one colour scale; (Above) / (Below) mark scores outside the round 2 value beyond the margin of error.

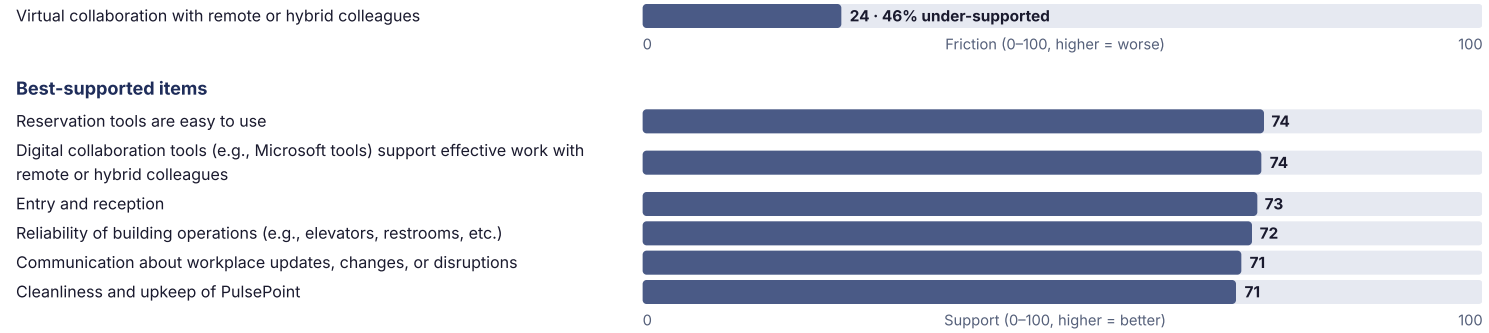

ROUND 2 DIMENSIONS — IMPORTANCE VS. SUPPORT

Dimension	Score ± margin	Items needing attention	Worst item
Work Activity	55 ± 1	3 of 7 items need attention	Focused individual work that requires concentration and minimal interruption (Friction 34)
Physical Feature	60 ± 1	5 of 9 items need attention	Availability of spaces that support focused work (Friction 30)
Service Level	66 ± 1	2 of 6 items need attention	Availability of on-site food and beverage options (Friction 18)
Digital & Tech	68 ± 1	1 of 6 items below 3.5 agreement	Technical issues that affect my ability to work are resolved in a timely manner (agreement 3.46)

ROUND 2 FRICTION AND STRENGTHS

QUESTION-LEVEL DETAIL BY SITE

One value per cell. For the 22 items with an Importance rating the value is **Friction** (0–100, higher = worse) and the cell carries the official status: ▼ Needs attention · ● On track · ▲ Exceeds needs. For **Digital & Tech** (no Importance rating) the value is **agreement** (1–5) with ◇ — it is **not comparable** with Friction. Hover a cell (HTML) for Importance, Support, Gap and severity. Items are ordered by round 2 Friction within each dimension. Sites (alphabetical): **CMA** Costa Mesa · **WCR** Walnut Creek · **RKH** Rocky Hill · **WAL** Wallingford · **DCW** Washington · **WIL** Wilmington · **LKM** Lake Mary · **COL** Columbus · **URB** Urbandale · **BRM** Chicago-Bryn Mawr · **OVP** Overland Park · **LOU** Louisville · **HAR** Harvey · **WOB** Woburn · **HAN** Hanover · **MEN** Mendota Heights · **STL** St. Louis · **DUR** Durham · **WSA** Winston-Salem · **MAN** Manchester · **ISE** Iselin · **LVM** Las Vegas-Maryland Pkwy · **LVR** Las Vegas-Russell · **LKS** Lake Success · **LAT** Latham · **SVF** Seven Fields · **NAS** Nashville · **ASH** Ashburn · **SEA** Seattle · **WAU** Waukesha.

Data source & method. PulsePoint survey export (Round 2) · completed responses · 30 round 2 sites. The Index Score is the unweighted average of the four Dimension Scores (0–100) — the same calculation as the Tableau deck. ± is the 95% margin from resampling respondents. Friction and status per the official Tableau spec. “Round 2 average” means the 30 round 2 sites pooled, in the selected population (completed responses or all responses). Round 2 sites are compared only with each other. Not asked in Round 2: “Ability to get help resolving workplace or technology issues while on site” (Service Level); “Support from a community manager” (Service Level) — those dimensions average the items that were asked, so they are not directly comparable with other rounds. Comment themes and sentiment are automated and not yet validated.
